Discovering the right dentist is a lot like finding the perfect man: You know he's out there somewhere, but you have to weed through a few duds before you find him. Thanks to this list of the top cosmetic dentists in the area, you can skip the messy test phase and head straight to a dentist you'll be able to trust.—T.N.

Jonathan Scharf, DMD, FAACD

and the Pennsylvania Center
for Cosmetic Dentistry

101 John Robert Thomas Drive, Exton,
484-696-4777; extondental.com

If you covet the smile of a local television personality, chances are it was created by Dr. Jonathan Scharf. For more than 30 years, Scharf has led the field of cosmetic dentistry as a fellow and former president of the American Academy of Cosmetic Dentistry and through the lectures he delivers at universities and major dental conferences across the country.

Robert Marus, DDS

1003 Floral Vale Boulevard, Yardley,
215-504-9119; drmarus.com

Artistic prowess and attention to detail are hallmarks of Dr. Robert Marus's cosmetic dental practice. Marus will make sure you're in love with your smile by handcrafting veneers and adjusting them to your personal aesthetics before attaching the permanent shells. What's more, you'll test-drive temporary veneers as you wait for your real ones to arrive. Marus patented the process to make sure you get the look best suited for your face.

wynnewooddentalarts.com

Dr. Thomas J. DeFinnis has been turning teeth from ho-hum to Hollywood-ready for the past 10 years. Bonding is big at his Main Line office, and DeFinnis will work with you to customize the teeth to the shade that suits you best. "You can go from chalk-white to a little stain," he says. "It's really personal preference."

Harold Yaffe, DDS
The Dental Spa

1601 Walnut Street, 215-567-0800;
phillydentalspa.com

After serving as a captain in the US Army, Dr. Harold Yaffe opened the Philadelphia dental practice he's helmed for more than 30 years. As the name suggests, the Dental Spa's aim is to pamper you during your procedure, so expect moisturizing hand treatments and TV screens at every workstation. But perhaps the greatest perk for patients is Yaffe's philosophy on patient relations: "I treat people like I want to be treated," he says.

Daniel Bills, DMD, MS
Innovative Orthodontics

1306 Liberty Place, Sicklerville, New Jersey,
856-875-4600; innovativeorthodontics.net
Correct crooked teeth without the dorky metal of yesteryear with Invisalign's clear trays. If you're ready to get fitted, head for Innovative Orthodontics. Dr. Daniel Bills's newly opened office features a layout that offers plenty of patient privacy and flat-screen TVs at each treatment station. It's the perfect place, says Bills, to bring orthodontics into the new millennium.
